Organize Contact Groups

Create a contact group

Use a Contact Group to send a message to multiple people - a billing team, a follow-up committee, or to all staff members - without having to add each name to the To field individually. Contact Groups can help streamline your process to quickly send the right message to the right people.

1. Select **Home** > **Messages**.

2. Click the **Create New Group** button.

3. Add a name for the new group.

4. Click the **Add Contacts** button.

5. Select the username(s) you would like part of the group and click **Save,**

6. Click **Save** again.

Edit a contact group

1. Select **Home** > **Messages**.

2. Locate the contact group and click on the ⋮ icon

3. Click **Edit.**

4. Rename the Contact group or add/remove users.

5. Click **Save**.

Delete a contact group

1. Select **Home** > **Messages**.

2. Locate the contact group and click on the ⋮ icon.

3. Click **Delete**, and select **OK** when the ***"Are you sure you want to delete the [Name] contact group?"*** pop-up displays.

4. Click **Delet**e again.

Create a Shared Contact Group

Creating a Shared Contact Group allows you not only to send messages to groups but also to share those groups across your organization. This enables employees working on specific tasks (e.g., denials or collections) to ensure timely notifications are sent to the appropriate individuals.

Who can create Contact Groups?

Users with the Contacts permission set to Access, Modify, and Share can create new shared contact groups or edit their own.

Auth Reps and Admins can edit any Shared Contact Group.

1. Select **Home** > **Messages**.

2. Find the Contact Groups tab and click**Add**.

3. Add a name for the new group.

4. Check the ***Share this group*** box.

5. Select who to share it with (**All Users**, **Admins Only**, or **Auth Reps Only**) or click **Add Contacts** to manually add contacts to your group.

> ✨ When using the "Select Contacts" option, the contacts will be sorted by their respective customer, and it includes a search field for easier navigation.

6. **Optional**: You can manually remove any users from your list with the "Remove" option.

7. Click **Save**.
