

Getting started with fee schedules

† Modified on 05/19/2025 3:40 pm EDT

Add an empty Fee Schedule

1. Select Customer **Setup** > **Codes...** > **Fee Schedules**.
2. Click the **New Fee Schedule** button.
3. Select Create an empty fee schedule.
4. Select the **Show Preview** button.
5. Type your fee schedule name in the **Name** field.
6. Enter the **Effective From** and **Effective To** dates.
7. Write a **Description** of your fee schedule.
8. Within the Fee Schedule tab, a list of your CPT/HCPCS and Revenue Codes will display.

 At least one CPT/HCPCS and Revenue code must be added in order to create a new fee schedule.

9. **Add your prices** to the codes in the Price column.
10. From the **Configuration** tab, select how to apply your fee schedule.
 1. Apply based on payer, payer type, or patient type: This option will allow you to apply this fee schedule to a specified primary payer, primary payer type, or patient type.
 1. **Select Payer (based on primary payer).**
 1. Place a check in the **Set as default for new payers** box to have this fee schedule apply to any newly created payer.
 2. Use the **Payer** drop-down menu to select the payers this fee schedule should apply to.
 2. **Select Payer Type (based on primary payer).**
 1. Use the **Payer Type** drop-down menu to select the payer types this fee schedule should apply to.
 3. **Select Patient Account Type.**
 1. Use the **Patient Account Type** drop-down menu to select the patient types this fee schedule should apply to.

2. **Apply based on location or provider:** This option will allow you to apply this fee schedule to a specified rendering provider, rendering provider's practice, facility, or facility and provider.

1. **Select Provider (based on the Rendering Provider)**

1. Place a check in the **Set as default for new providers** box to have this fee schedule apply to any newly created providers.
2. Use the **Provider** drop-down menu to select the provider this fee schedule should apply to.

2. **Select Practice.**

1. Place a check in the **Set as default for new practices** box to have this fee schedule apply to any newly created practices.
2. Use the **Practice** drop-down menu to select the practices this fee schedule should apply to.

3. **Select Facility.**

1. Place a check in the **Set as default for new facilities** box to have this fee schedule apply to any new created facilities.
2. Use the **Facility** drop-down menu to select the facilities this fee schedule should apply to.

4. **Select Facility & Provider.**

1. Use the **Facility & Provider** drop-down menu to select the facility and provider this fee schedule should apply to.

3. **Apply based on Place of Service or Type of Service** This option will allow you to apply this fee schedule to a specified POS or TOS.

1. **Select Place of Service.**

1. Use the **Place of Service** drop-down menu to select the POS codes this fee schedule should apply to.

2. **Select Type of Service.**

1. Use the **Type of Service** drop-down menu to select the TOS code this fee schedule should apply to.

11. Click **Save**.

Add a Fee Schedule

There are many different ways to add a Fee Schedule. Follow the steps below to add a Fee Schedule based from an existing Fee Schedule or contract, from the Medicare Fee Schedule, or from charges entered.

- 1. Select **Customer Setup > Codes... > Fee Schedules**.
- 2. Click the **New Fee Schedule** button.
- 3. Select how you want to base the fee schedule from.

1. **Set prices based on another Fee Schedule.**

- 1. Select the **Existing Fee Schedule** from the list.

2. **Set prices based on the Medicare Fee Schedule.**

- 1. Use the **Medicare Fee Schedule Year** drop-down menu to select which Medicare Fee Schedule Year to use (the Medicare Clinical Laboratory Fee Schedule is only available starting in 2025).
- 2. Enter your **Zip code** or enter the **Carrier** and **Locality**.

 The Medicare Fee Schedule includes the **Medicare Physician Fee Schedule (MPFS)** and the **Medicare Clinical Laboratory Fee Schedule**. Procedure codes associated with a lab or test will be priced by the Clinical Laboratory Fee Schedule, while other procedures will be priced by the Medicare Physician Fee Schedule. Please note that the **Medicare Clinical Laboratory Fee Schedule** consists of a single price, either local or national, in contrast with the **Medicare Physician Fee Schedule**, which is determined based on the specific zip code location.

Medicare Clinical Laboratory Fee Schedule
Code: 81400

ALEX TEST PRACTICE 419 MAYBE 98888888 NO IDEA		\$322.30	\$170.88	1	0.94 1.467

3. Select the **Pricing Method**.

- 1. **Use Non-Facility Pricing:** Selecting this will not return the Medicare Fee Schedule's non-facility codes that are not applicable for non-facility pricing.

1. **Include prices for codes that are not applicable for non-facility** Select this option if you still want to use those prices (when basing the fees on the Medicare fee schedule but not necessarily submitting all claims to Medicare).

2. Or select **Facility Pricing** (default behavior).

4. Set prices based on a Contract.

1. **Use the maximum contract price for each code:** Set the procedure code prices based on the maximum price across all of your contracts.
2. **Base Prices on a specific contract** Select a specific contract to base your procedure code prices off of.
3. **Set prices based on charges entered** Specify how far back the system should look for previously billed prices for your procedure codes.

4. Select one of the Adjust Prices options for your new contact based on the Medicare Fee Schedule.

1. **Do not adjust the prices of the new Fee Schedule** Do not adjust any of the procedure code prices on this contact.
2. **Increase prices by:** Increases the procedure code prices by adding a percentage of change to the original amount.

 If a procedure code with a price of \$200 is **increased** by 140% it will calculate for a total of \$480. ($\$200 + \280 (140% of the price)).

3. **Decrease prices by:** Decrease the procedure code prices by subtracting a percentage of change from the original amount.

 If a procedure code with a price of \$200 is **decreased** by 40% it will calculate for a total of \$120. ($\$200 - \80 (40% of the price)).

4. **Adjust prices to:** Adjust the procedure code prices by a set percentage based off of the original price.

 If a procedure code with a price of \$200 is **adjusted** by 140% it will calculate for a total of \$280.

5. **Round prices up the next whole dollar amount** Automatically adjust the prices to the nearest

whole dollar amount.

5. Select the **Show Preview** button.
6. **Type** your fee schedule name in the **Name** field.
7. Enter the **Effective From** and **Effective To** dates to apply this fee schedule based on the dates of service.
8. Write a **Description** of your fee schedule.
9. Within the **Fee Schedule** tab, a list of your CPT/HCPCS and Revenue codes will appear.

 At least one CPT/HCPCS and Revenue code must be added in order to create a new fee schedule.

10. **Add your prices** to the codes on the price column.
11. **Optional:** From the **Configuration** tab, select how to apply your fee schedule
 1. **Apply based on payer, payer type, or patient type** This option will allow you to apply this fee schedule to a specified primary payer, primary payer type, or patient type.
 1. **Select Payer (based on primary payer).**
 1. Place a check in the **Set as default for new payers** box to have this fee schedule apply to any newly created payer.
 2. Use the **Payer** drop-down menu to select the payers this fee schedule should apply to.
 2. **Select Payer Type (based on primary payer).**
 1. Use the **Payer Type** drop-down menu to select the payer types this fee schedule should apply to.
 3. **Select Patient Account Type.**
 1. Use the **Patient Account Type** drop-down menu to select the patient types this fee schedule should apply to.
 2. **Apply based on location or provider.** This option will allow you to apply this fee schedule to a specified rendering provider, rendering provider's practice, facility, or facility and provider.
 1. **Select Provider (based on the Rendering Provider)**
 1. Place a check in the **Set as default for new providers** box to have this fee schedule apply to any newly created providers.

2. Use the **Provider** drop-down menu to select the provider this fee schedule should apply to.

2. **Select Practice.**

1. Place a check in the **Set as default for new practices** box to have this fee schedule apply to any newly created practices.
2. Use the **Practice** drop-down menu to select the practices this fee schedule should apply to.

3. **Select Facility.**

1. Place a check in the **Set as default for new facilities** box to have this fee schedule apply to any new created facilities.
2. Use the **Facility** drop-down menu to select the facilities this fee schedule should apply to.

4. **Select Facility & Provider.**

1. Use the **Facility & Provider** drop-down menu to select the facility and provider this fee schedule should apply to.

3. **Apply based on Place of Service or Type of Service** This option will allow you to apply this fee schedule to a specified POS or TOS.

1. **Select Place of Service.**

1. Use the **Place of Service** drop-down menu to select the POS codes this fee schedule should apply to.

2. **Select Type of Service.**

1. Use the **Type of Service** drop-down menu to select the TOS codes this fee schedule should apply to.

4. **Apply based on Modifier.** This option will allow you to apply this fee schedule to a specified modifier.

1. **Select Modifier.**

1. Use the **Modifier(s)** drop-down menu to select the modifiers this fee schedule should apply to.

12. **Optional:** From the **Anesthesia** tab, select how to calculate the number of units for anesthesia procedures:

1. **Use anesthesia base units from the Medicare Physician Fee Schedule** This option will use the anesthesia base units (15 Minutes = 1 Unit) from the MPFS (recommended).

2. **Change the number of minutes per unit for anesthesia procedures** This option will allow you to manually enter the number of minutes per unit for anesthesia procedures when using this fee schedule.

13. Click **Save**.

Add a Fee Schedule from imported prices

Follow the steps below to add a fee scheduled based on imported prices.

Part 1: Create a Spreadsheet

1. The first row of the spreadsheet should only contain **column names**.
2. Label the **First** column of the spreadsheet as **Code**, it should contain the list your **billing codes**.
3. Label the **Second** column of the spreadsheet as **Description**, it should contain the list of **code descriptions**.

⚠ If the code is not in your local list, it will be added with this description.

4. Label the **Third** column of the spreadsheet as **Default**, it should contain the list of **default billing prices**.

⚠ If the code is not in your local list, it will be added with this default price.

5. Label the **Fourth** column of the spreadsheet as **Price**, it should contain list of **Billing Prices**.

Example Format			
Column headers must be the first row. Columns marked with a * are required.			
Code *	Description	Default	Price *
99212	If the code is not in your local list, it's added with this description. OFFICE VISIT	If the code is not in your local list, it's added with this default price. 45.00	50.25

6. **Save** the spreadsheet as a Comma delimited (.csv), Excel (.xls or .xlsx) file.

⚠ Only the first sheet/tab will be imported.

Part 2: Importing into CollaborateMD

1. Select **Customer Setup > Codes... > Fee Schedules**.
2. Click the **New Fee Schedule** button.
3. Select the **Import Prices** option.
4. Use the **File to Import** field to upload the spreadsheet.
5. Click the **Show Preview** to import the spreadsheet.
6. **Type** the name for the contact in the Name field.
7. Enter the **Effective From** and **Effective To** dates.
8. Write a **Description** of your fee schedule.
9. Within the **Fee Schedule** tab, a list of your CPT/HCPCS and Revenue Codes will display.

 At least one CPT/HCPCS and Revenue code must be added in order to create a new fee schedule.

10. **Add your prices** to the codes on the **Price** column.
 11. From the **Configuration** tab, select how to apply your fee schedule.
 1. **Apply based on payer, payer type, or patient type** This option will allow you to apply this fee schedule to a specified primary payer, primary payer type, or patient type.
 2. **Apply based on location or provider** This option will allow you to apply this fee schedule to a specified rendering provider, rendering provider's practice, facility, or facility and provider.
 3. **Apply based on Place of Service or Type of Service** This option will allow you to apply this fee schedule to a specified POS or TOS.
 12. Select your configuration fields.
 13. Click **Save**.
