

# Adding a Global Period Alert

Modified on 08/15/2025 11:08 am EDT

A Global Period applies to specific procedure codes, typically surgery codes. These procedure codes have a follow-up period during which charges for normal post-operative care are bundled into the global surgery fee.

If you save a new claim with a Date Of Service (DOS) that falls within the follow up period (i.e. Global Period) of a code on a previously created claim, the Global Period Alert will appear.
